

Technical Data Sheet

BlueGrip™ S3 Workholding Adhesive

Product Description

Blue Photon's BlueGrip S3 is an ultraviolet (UV) curable workholding adhesive designed for bonding and fixturing. The gel like consistency of BlueGrip S3 allows the formation of thick bond lines for bonding of widely spaced or uneven workpieces. BlueGrip S3 is designed especially for use with the Blue Photon workholding system.

Typical Applications

Typical applications for BlueGrip S3 include bonding of metal, ceramic and other materials to a Blue Photon gripper attached to a workholding fixture.

Instructions for Use

For best performance, surfaces should be free of dirt and grease. Apply enough of the BlueGrip S3 to the gripper face to completely fill the gap between the gripper and the workpiece, then load the workpiece in the fixture as needed and expose to a 385 nm UV light source through the gripper.

Technical Features

Chemical Type Acrylic
Appearance Translucent White
Glass Transition (by DSC) 65°C
Viscosity @ 25°C ~350,000 cps
Specific Gravity 1.07

Performance of Cured Material

Depth of Cure020-.125"
Maximum Gap Fill125"
Block Shear >2400 psi
(Modified ISO13445, 0.25 in² steel block to glass plate)
Temperature Range 32°F to 150°F

Packaging

30 cc Amber Syringe
1L Amber Cartridge
40 lb Pail
Others Available

General Information

Safe Handling and Storage

Store BlueGrip S3 in its original container in a cool, dry location. Avoid prolonged exposure to light.

Shelf Life

9 months from date of manufacture.
